Dear OSHA:

I have recently heard about the smoking regulations that have been proposed. I have been a businessowner for 7 years and I am writing to personally oppose these restrictions.

I can't help but feel that government officials have lost touch with the people who put them into office.

I have always believed in freedom of choice and you, being a government agency, should feel the same way. You need to know that I am against these regulations.

Sincerely, AUG 1 1991
